

Canadian F.O.P. Families & Friends Network

Attention: Individuals/Parents/Caregivers/Friends of Children with Fibrodysplasia Ossificans Progressiva (FOP)

We are the parents of a child diagnosed with FOP in March, 2007. We are interested in finding other Canadian FOP families & friends to form a network with the following goals in mind:

- Present a group voice to represent the interests of individuals with F.O.P. to the Health Ministries and organizations responsible for musculoskeletal research and bone health.
- Increase F.O.P. awareness, advocacy and research collaborations.

If you wish to be part of the *Canadian FOP Families & Friends Network* and partner with the International Fibrodysplasia Ossificans Progressiva Association (www.ifopa.org) to promote awareness and informed patient care in Canada, please forward the contact information requested below by mail or e-mail. If you have any questions or concerns, please e-mail: CanadianFOPnetwork@live.com.

“Our lives are not determined by what happens to us, but how we react to what happens.....”

Thank you
